SUMMARY

I'm a Motivated and reliable entry-level deckhand with an MCA Yacht Rating and AEC1. I've developed a strong work ethic through living and working on a farm, along with hands-on experience in physically demanding roles. I have basic sailing experience, I'm confident using electrical tools, and I've gained practical mechanical exposure by assisting with diesel engine maintenance.

I'm physically fit, safety-conscious, and genuinely eager to build a long-term career in the yachting industry. I work well in a team, pay attention to detail, and I'm always willing to help wherever needed, whether on deck or supporting the engineering side.
